

Course Specifications

AutoCAD 2010 Advanced

Course number:

Course length: 5 days

AutoCAD 2010 Advanced

AutoCAD 2010 Advanced is the second in a series of courses in AutoCAD. While our initial course, *AutoCAD 2010 Fundamentals*, focuses on the basic tools to create a drawing and setup files, this course strives to make the student more proficient in his or her use of AutoCAD and introduces more advanced techniques.

The focus includes the following topics:

- Advanced Text Objects
- Creating Tables
- Defining dynamic blocks and attributes
- Using external reference files and image files
- Creating sheet sets
- CAD Management and System Setup
- Enhancing productivity with interface customization of AutoCAD

We assume in this class that the student is comfortable with the basics of creating an AutoCAD drawing as taught in *AutoCAD 2010 Fundamentals*. Our teaching strategy is to demonstrate the versatility of AutoCAD by showing a range of options to achieve a particular result, and to suggest where one option can be better than another under given circumstances. Our hope is that students will practice the topics and concepts discussed in this class, and apply them in ways appropriate for their work.

Prerequisites: AutoCAD 2010 Fundamentals (or equivalent) and at least 80 hours of experience with AutoCAD.

Registration:

Micro Market Business Centre
700 Progress Avenue
Kingston, Ontario, K7M 4W9

Toll Free: 1-877-996-6622
Local: (613) 634-8125 ext. 4

Table of Contents

Chapter 1: Introduction

Chapter 2: Advanced Text Objects

Annotation Scale Overview
Using Fields
Controlling the Draw Order

Chapter 3: Working with Tables

Creating Tables
Modifying Tables
Working with Linked Tables

Creating Table Styles

Chapter 4: Projects Advanced Annotation

Fields and Tables

Chapter 5: Dynamic Blocks

Working with Dynamic Blocks
Creating Dynamic Block Definitions
Dynamic Block Authoring Tools
Additional Visibility Options

Chapter 6: Attributes

Inserting Blocks with Attributes
Editing Attribute Values
Defining Attributes
Redefining Blocks with Attributes
Extracting Attributes

Chapter 7: Projects – Advanced Blocks & Attributes

Dynamic Block Practice – Desk Unit
Mechanical Attribute Project Amplifier
Architectural Attribute Project Door Schedule

Chapter 8: External References

Attaching External References
Modifying External References
Xref Specific Information

Chapter 9: Other Tools for Collaboration

eTransmit
Hyperlinks

Chapter 10: Projects Reference & Share Information

Reference & Share Information

Chapter 11: Introduction to Sheet Sets

Overview of Sheet Sets
Creating Sheet Sets
Creating Sheets in Sheet Sets
Adding Views to Sheets
Importing Layouts to Sheet Sets

Chapter 12: Publishing & Customizing Sheet Sets

Transmitting and Archiving Sheet Sets

Course Specifications

AutoCAD 2010 Advanced

Course number:

Course length: 5 days

Publishing Sheet Sets
Customizing Sheet Sets
Custom Blocks for Sheet Sets

Chapter 13: Projects Sheet Sets Sheet Sets

Chapter 14: Managing Layers
Working in the Layer Properties Manager
Creating Layer Filters
Setting Layer States

Chapter 15: CAD Standards
CAD Standards Concepts
Configuring Standards
Checking Standards
Layer Translator

Chapter 16: System Setup
Options Dialog Box
System Variables
Dynamic Input Settings
Drawing Utilities
Managing Plotters
Plot Styles

Chapter 17: Introduction to Customization
Why Customize?
What Can be Customized?
Creating a Custom Workspace

Chapter 18: Customizing the User Interface
Using the Customize User Interface (CUI) Dialog Box
Creating Custom Toolbars
Customizing the Ribbon
Customizing Menus
Keyboard Shortcuts

Chapter 19: Macros and Custom Routines
Custom Commands and Macros
Running Scripts
Action Recorder
Editing Action Macros
Loading Custom Routines
